

## DATA SHEET

LED INDUSTRIAL LAMP WITH DIMMABLE DRIVER 150W, 5000K, 220V,  
SMD3030, IP65

LIK15050

## DESCRIPTION

LED lighting fixture LIK15050 is suitable for lighting of industrial, warehouse and production buildings, replacing the old low-efficient fixtures. It is known by its high energy efficiency 145 lm/W, innovative and light shock-resistant body IK08, easy and fast mounting. The high index of protection IP65 makes this fixture suitable for indoor and outdoor installation. It drastically decreases electricity expenses.

The body has a breathing device/valve that prevents the penetration of moisture into the body. An advantage of the LED body is that it can be dimmed by 1-10 VDC and PWM 10V. It has a bracket and a ring, which allow you to choose the way of installation.

## BENEFITS

- High efficiency 145 lm/W
- Quickly and easily change of the light distribution (60°, 90°)
- Built-in dimming driver, 1-10 VDC and PWM 10V
- Flickerless
- Breathing device/valve
- IP65
- Optimal size and weight.
- Bracket and ring, which allow you to choose the way of installation
- Warranty period: 5 years

## APPLICATION

- Indoor and outdoor installation
- Warehouses
- Industrial lighting
- Sport facilities

## DATA SHEET

### Light technical information

- Efficiency: 145 lm/W
- Rated luminous flux: 21500 lm
- Flicker: <5%
- Color Rendering Index (CRI): >80
- Beam angle: 60/90°
- Correlated Color Temperature (CCT): 5000 K
- LED type: SEOUL SMD3030

### Electrotechnical information

- Voltage: 200-240 V AC
- Frequency: 50-60 Hz
- Power factor: >0.95
- Power: 150 W
- Driver: SOSEN

### Basic information

- Type of protection: IP65
- Impact protection rate: IK08
- Working temperature: -20 °C ÷ +45 °C
- On/Off Cycles: >30 000
- Lumen Maintenance L80B50: >50 000 h
- Dimensions: Ø340/190 mm
- Weight: 5.10 kg
- Warranty: 5 years
